ABOUT US

Helping Hut NGO was established with deep commitment to social change and the affirmative promotion of the inherent dignity of all individuals. Helping Hut NGO was established on the very basic premise that no human being should ever be in a place where they have to beg to survive. Helping Hut's vision is to establish an environment where all human beings, irrespective of the situation, have access to fundamental rights such as education, good work, and proper nutrition to ensure a life of dignity. What began as a humble and straightforward act of benevolence has, through the passage of time,

evolved into an efficient and effective movement with the ultimate goal of establishing inclusive development for all. Helping Hut is staunchly dedicated to empowering the marginalized classes of society, and particularly children and the underprivileged who are struggling with the harsh realities of homelessness or living in abject poverty. By providing free educational opportunities coupled with sustainable livelihood programs, this committed NGO strives hard to establish meaningful opportunities that promote self-sufficiency and restore the very intrinsic dignity of all human beings.

We believe that true and significant change comes not just from doing more of what one habitually does but also with sincere intent: these deeds being feeding the hungry, educating a poor child, or mentoring one seeking steady employment. These are not acts of charity; they are investments we must make toward a world that is fair and equitable to all parties involved.

In a world where a single gesture can light up the entire path of someone in need, Helping Hut is no less dedicated and committed to its mission, toiling day and night to see that no one is ever left behind in his or her struggle—because it is an internationally recognized fact that one act of kindness can change the course of a life forever dramatically.

VISION

We envision an equitable and compassionate society where various social initiatives are coordinated for awareness campaigns and grassroots support. We strive to make a difference in the lives of the less fortunate through direct action and long-term care. The very core of what we do is based on the philosophy that lasting change is made possible through collective compassion. This vision fosters a number of global Sustainable Development Goals (SDGs).

MISSION

Founded by a group of students, we strive to ensure that all people have access to decent housing, education and dignified livelihoods. We work against poverty and begging through alternative and sustainable livelihoods. From the monthly pledges contributed by our volunteers, we stipulate long-term campaigns in favor of community empowerment to protect future generations. We also aim to contribute to the achievement of key SDGs.

FOUNDER'S MESSAGE

Over the past five years, this journey has been nothing short of incredible. We began during the COVID pandemic with the goal of eradicating beggary and providing education to street children. At the time, the idea of functioning across India seemed like a distant dream, and even now, it feels surreal.

Through this experience, I have come to truly understand the power of perseverance, empathy, compassion, cooperation, and teamwork.

None of this would have been possible without the volunteers who have joined us along the way, tirelessly supporting the initiatives and cause we initially set out to achieve.

I am deeply grateful to everyone who has supported Helping Hut, standing by us through both the highs and lows.

"It is not necessary that your efforts will change the whole world, but if even one person is changed, then know that your efforts are heading in the right direction."

TEAM VARANASI

Started in 2022

300+ Registered Volunteers

Starting with dedication, team spirit and perseverance, Team Varanasi overcame early obstacles and is in a steady growth phase with 55 active members, all of whom value social improvement. In 2024, the team carried out meaningful initiatives such as the Summer Kit Distribution Drive for rickshaw pullers, Chabeel distribution, and Cleanliness Campaigns that aim at meeting the core issues faced by underprivileged communities. Their efforts on Dev Deepawali Utsav added a lot of fun to the celebrations, while the Old Age Home Visit served as a reminder of caring for the aged. Awareness efforts were conducted through Menstrual Hygiene Awareness Campaigns to develop awareness for health and dignity among women in backward areas. These events are far more than simple gatherings; their profound experiences strengthen and nurture the very souls of our communities. With each program and each initiative undertaken, Team Varanasi continues to build a strong foundation of service, compassion and growth, as it reignites its commitment to making a lasting difference in society.

TEAM MAU (U.P)

Started in 2023

100+ Registered Volunteers

Team Mau (U.P) was founded in September 2023 under the stewardship of Shamim Ahmed with a cleanup operation on Gandhi Jayanti. Although in the initial days the team lacked proper resources and faced challenges due to unfamiliarity with the area, the team adjusted quickly and grew strong. Starting with 13 members, the team's enthusiasm served to encourage many others to join, with the team now consisting of 50 active volunteers. Since then, the team has successfully carried out campaigns such as Plantation Drives, Eid Celebrations, Clothes Distribution, Zero Waste Food Campaign, Menstrual Hygiene Awareness, and Chabeel Distribution at polling booths, Education Awareness, and Swachhta Jagrukta Abhiyan. A visit to a Vridha Ashram turned out to be quite heartwarming, with an emphasis laid on the care of the elderly. These experiences have not only created social impact but also shaped the team's growth and commitment to continuous service.

TEAM GWALIOR

Started in 2020

350+ Registered Volunteers

Team Gwalior has a proud story of compassion and service. It is an extended family of over 100 members who take the responsibility of uplifting communities. With compassion as their driving force, they have made significant strides in social welfare through some summer and winter drives for clothes, slipper drives, sanitary pad distribution drives, and old age home visits to meet some of the seasonal and social requirements. The heartwarming celebrations of Children's Day and Makar Sankranti bridged joy, learning and community bonding. Each drive is a testimony to their commitment ensuring a little comfort, safety, and a lot of hope in the lives of those who come to the aid of their cause.

With the mission to build a society where no one is begging, Team Gwalior is expanding every day and working with empathy and purpose. United by a vision to bring about change, the team is putting forth every bit of effort in making a difference, one step at a time.

TEAM DELHI

Started in 2020

420+ Registered Volunteers

Since its inception in 2020, Team Delhi has worked on various social initiatives toward uplifting the underprivileged. The team does everything to ensure that happiness is brought to all—from children to the aged—there were gifts of food, clothing, and stationery, and it celebrates special festivals such as Diwali, Holi, and Yoga Day. The flagship initiative, Udaan Street School, provides children from slum areas with free education and enriching excursions for academic development and life experience. The team also conducts slum surveys and awareness programs that discourage begging and encourage sustainable ways of assisting the needy. They also celebrate birthdays with underprivileged children and connect emotionally with old-age homes. Their presence and active support for an event like VOLFEST speak volumes for engagement and outreach. Through a blend of empathy, consistency, and community efforts, a lasting impression has been carved by Team Delhi, which remains steadfast in building an inclusive and empowered society.

TEAM KOLKATA

Started in 2023

70+ Registered Volunteers

Shot on O

Kolkata | 2024.10.0

Having started off in April 2023 with the shortage of volunteers, Team Kolkata grew by virtue of teamwork and dedication. The first campaign, Palette of Possibilities, set the stage for a pace of impactful initiatives, including Anondo Baisakh, Mandela Month, Plate of Kindness, and Christmas happiness. Among favorites is the Utthaan Abhiyan, which aims to make slum dwellers aware of their basic rights, and the setting up of a library in an orphanage for fostering reading habits among children. With Alingon, they have brought to life some inspiring stories of resilience within the community. Other repeated initiatives include supporting the underprivileged with essentials, playing with differently-abled children, feeding stray animals, and conducting clothing and food drives. They have also surveyed on menstrual hygiene awareness. Moving forward, Team Kolkata is still determined to touch more lives and creating a society free from begging.

TEAM GORAKHPUR

*Started in 2021
100+ Registered Volunteers*

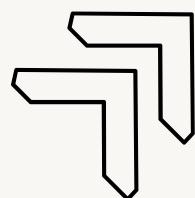

Team Gorakhpur is comprised of passionate individuals working relentlessly towards food, shelter and dignity causes. This team has carried out meaningful initiatives throughout the years by the means of distribution of food, blankets and clothes in addition to education programs and stationary drives. The "Sneh Campaign" at Kushth Seva Ashram was a deep and heartwarming outreach activity. Team Gorakhpur also conducts seasonal drives like Summer Kit Distribution, which took care of comfort during adverse weather conditions, while campaigns for menstrual hygiene awareness dealt with important issues surrounding health and dignity. Independence Day celebrations saw communities being nourished, educated and unified in spirit. This dedication remains strong as a way of truly bringing positive change from every step.

OUR DRIVES

*A stronger society begins
with open hearts and
equal chances*

FOOD DISTRIBUTION DRIVE

In the last five years, food distribution drives have transformed from small city-based initiatives to a wide-ranging movement. In 2021, during the pandemic, our teams in Patna, Delhi, and Kota were engaged in providing food relief to struggling families. In 2022, the volunteers maintained their charity work on a bigger scale in Dwarka, where more than 1,000 refreshment packs were distributed. It gained momentum in 2023 in various locations, including Gwalior, Gorakhpur, Kerala, and Kolkata, providing relief to hundreds of people in slum areas and temples during national celebrations and times of need.

In 2024, our reach touched Varanasi, Mau, and beyond, distributing more than 1,500 packs of balanced meals to the food-insecure. It contained few essentials like rice, lentils, vegetables, and even special nutrition for children and the elderly. Bhagawati Mess donated fresh and delicious idlis to us and our dedicated volunteer of Gwalior distributed them among poor and hungry people. Our Varanasi volunteers distributed fresh fruits and snacks to more than 500 people, and our 8 dedicated volunteers of Gorakhpur distributed meal of puri sabji with water bottle from Taramandal to Nauka Vihar to help hardworking individuals like street vendors, laborers, and daily wagers, Team Kolkata distributed food items to around 50 people. Team Delhi collaborated with Project Uplift, distributing food to over 1000 beneficiaries. Team Mau also arranged food, with more than 350 beneficiaries receiving food. From crises to consistent support, this five-year-long journey is representative of our commitment to ensure that no one sleeps hungry.

CLOTHES DISTRIBUTION DRIVE

Our clothing distribution drives have touched countless lives over the last five years and remind us that sometimes a simple act of kindness—a piece of clean, wearable clothing—is enough to restore dignity to the life of a fellow human being. Since 2020, our teams from Patna, Dwarka, and Gwalior have selflessly provided clothing to those living in harsh conditions on the streets, under bridges, and in slums. This initiative continued in 2021 through multiple sites in Delhi, focusing on those forced to survive under terrible poverty with barely enough clothing. Joint efforts in Dwarka, New Delhi, Varanasi and Gorakhpur brought warmth to many through the equal distribution of daily wear from 2022 to 2023.

From 2024 to this year as far, it further expanded to different parts of India like Gwalior, Mau, and Varanasi, Gorakhpur, Delhi, Kolkata to distribute sweaters, jackets, T-shirts, and blankets, especially among the needy in the winter, through generous public donations. On 1st June, 2025, Team Delhi arranged clothes distribution and donation drive at different location. Team Mau organized a cloth collection drive for the needy on 5th June, 2024. Team Kolkata arranged clothes distribution drive at Dum Dum station on 8th October, on the occasion of Durga Puja. Team Gwalior reached over 200 beneficiaries, Team Delhi collected and distributed more than 100 gently used and new clothing to underprivileged families. Our emphasis remained on sustainability, recycling gently worn clothes, and moving them to where they were needed most. Thousands have benefited from the project down the years, and the heartfelt gratitude received from recipients fuels our commitment to continue.

STATIONERY DISTRIBUTION DRIVE

From 2020 to 2025, these drives have really helped in working for educational equity for underprivileged children across India. What started with a small effort with NSS, DDUC back in 2020, later widespread into a large campaign in the cities of Faridabad, Samastipur, Gwalior, Dwarka, Alwar, and Neemrana. These efforts were fueled by the belief that quality education is not a privilege but a fundamental right for each and every one. Our teams in 2024 have kept this alive by walking beside students of all ages whose education was constrained because of financial barriers. In Dwarka, over 50 children received stationery kits from Team Delhi.

Team Delhi conducted a drive in Nangil, on 8th September, 2024 where around 45 stationery kits were distributed, on 24th August over 50 children received essential stationery kits in collaboration with Yuva Jan Sangam Trust, Team Gorakhpur provided educational materials near Gopal mandir, Mohaddipur, on 2nd March, including copies and pencils, and conducted an interactive session. On 16th August, Team Gwalior also distributed stationery kits to the children. Investing in education is an investment in a better future, not just for an individual child but for society as a whole. Over the years, more than 1,500 kits, including stationery of notebooks, pens, pencils, erasers, and other essentials, have been distributed to help children pursue their education with dignity and confidence. This five-year journey reflects our undying commitment to nurture minds, uplift spirits, and help lay down a foundation for a generation that is empowered, enlightened, and ready to forge the nation.

RATION DISTRIBUTION DRIVE

Our ration distribution drives are an initiative that has saved numerous families from hunger and food insecurity over the past five years. The initiative was started right during the 2020 pandemic when lockdowns came into the lives of daily wage earners and farmers. Deeply moved by the situation and food wastage, the volunteers went to almost inaccessible places like Village Kharja in Rajasthan and distributed dry ration kits with utmost care and hygiene. In 2021, Anndaan was executed with the collaboration of Silizium, the Electronics Society of DDUC, extending help to a larger section of the population through essential food supplies.

These kits included rice, lentils, flour, oil, and other non-perishables to make sure families could survive in hard times. Since then, year by year, we have built and strengthened our foundation: giving not just meals, but hope, dignity, and security to those in need. Through this effort, we convey the idea that the members of the society should feel duty-bound to ensure that no one ever goes to bed hungry. Driven by the spirit of volunteerism, and with the support of donors and partner organizations, the entire movement has galvanized from compassion to action.

BLANKET DISTRIBUTION DRIVE

These distribution initiatives over these past five years are truly sincere attempts to respond to the harsh North Indian winters that take the lives of one or more people annually-in-need-and homeless. In 2020, our able volunteers came forward to warm up those who slept on the road without any shelter or were exposed to deadly cold. Realizing that a blanket could indicate the difference between death and life, we resolved to serve every soul with love and dignity.

In October 2022, Team Gwalior distributed blankets among the daily wage workers near the International Cricket Stadium. Proceeding in this effort, in the harsh winter of 2024, Delhi, Gorakhpur, Gwalior, and Pune joined hands to deliver warm blankets to the homeless lying under the stars. Team Pune distributed over 50 blankets like socks, caps, Team Gwalior not only distributed blankets but also conducted surveys to better understand the challenges faced by the people during winter months. Volunteers of Team Delhi used their pocket money to bring warmth to those people. These drives was meant to much more than physically warming the deserving souls; it was to impart dignity and care to those who are largely neglected. Another act of kindness through which our volunteers build hope, reminding people that they are never alone. The journey thus continues, one blanket at a time, nurturing warmth and humanity.

SUMMER-KIT DISTRIBUTION DRIVE

As temperatures rose and the heatwaves became unbearable, the teams in Gorakhpur, Gwalior, Kolkata, and Varanasi set out for a single but meaningful initiative of distributing summer kits to those in greatest need. After surveying the doors of various homes to finalize the community's needs, our volunteers decided upon items quite essential to help residents face the extreme cases of heat. These kits had energy-giving glucose packs, cotton cloths as breathable sun shields, reusable water bottles to store clean drinking water, and basic medical supplies such as ORS, antiseptic creams, and bandages to cater to common issues arising from heat.

Special attention was given to outdoor workers, the elderly, and children, because they are most vulnerable during summer. Team Delhi conducted a drive in Najafgarh to assess living condition slum dwellers and distributed summer kits. Team Kolkata provided essential summer kits including water bottles, ORS, and biscuits among 70-80 beneficiaries. Team Varanasi held a summer kit distribution drive on 31st May, 2025, where they provided essential summer kits to the rickshaw pullers, which brought smiles and relief to the hardworking rickshaw pullers in the city. Smiling faces, grateful words, and the sighs of relief from those who were helped assured us that a single act of kindness could bring real comfort. These drives teach that immediate intervention based on need can save a life when faced with nature's devastating turn.

TOKEN OF RELIEF

On 28th May 2023, Team BHU, with compassion, organized a lemonade distribution on the 28th May 2023 near Sir Sunderlal Hospital, Banaras Hindu University (BHU), as a temporary relief for patients and families from underprivileged backgrounds. Scorching summer heat from an already tiring hospital appointment, this initiative has not only given a bit of comfort but also provided emotional warmth and strength to those drowning in medical and financial troubles.

In 2024, over 4000 people were served Chabeel at Kalkaji Mandir, Delhi. Team Varanasi distributed over 2000 glasses of sharbat. Volunteers identified specific needs beyond treatment and responded by creating a space allowing patients to pause for some moments to enjoy a simple yet meaningful gesture of support. This drive provided relief during long hours spent under the scorching sun around hospital premises with limited access to standard refreshments. Team Mau provided free water bottles to voters on 1st June. The atmosphere was filled with smiling faces and words of appreciation. It can be said that by the end of 2025, these drives will bring more smiles among the people, whom are working hard in the scorching heat.

VISIT TO VISUALLY IMPAIRED CHILDREN SCHOOL

With the collaboration of the Asimov Robotics Club, Team Gwalior organized the Blind School Food Drive at Atma Jyoti Avasiya Drishti Heen Kanya Vidyalaya in Morar, Gwalior. The initiative aimed at the upliftment of visually impaired girls by providing various essentials for their studies. Signifying resilience, innocent and unrealized potential, the Drishti Blind School holds a special place in our hearts.

The team planned to bring joy and care for the children through a unique learning process in a one-time yet very impactful drive. The support that was given highlighted the importance of allocating equal opportunities to each person, no matter their physical form. Just one smile from a child can remind you how powerful empathy and action can be. The lightness of this event was enough to ignite a spark in the face of disappointment through a hopeful opportunity where compassion and cooperation came together.

OLD AGE HOME VISIT

Over the past few years, our teams have made visits to old age homes to provide warmth, dignity, and companionship to the elderly, who often suffer from loneliness and neglect. Team New Delhi visited the Manav Seva Old Age Home in Shahdara in 2022, where volunteers shared food, laughter, and emotional support with the residents. The team created a great atmosphere of joy with shared stories and fun activities, and a nice meal that lifted the spirits of everyone involved. Additionally, the team distributed gifts to underprivileged individuals, to help them earn a livelihood, thereby upholding their dignity.

In 2024, teams from Gwalior and Varanasi visited Mangaldham Vridh Ashram and Apna Ghar Ashram. The volunteers arranged recreational sessions involving music, games, and craft while hand-delivering snacks, slippers, and other essentials to ensure the comfort of the residents. Roses were offered as a token of love and respect. Team Gorakhpur's selfless initiative brought smiles to approximately 80 residents. Volunteers of Team Gwalior engaged in meaningful activities like music sessions, storytelling at Narayan Vriddhashram. These visits provided sustenance to the residents' minds as well, through meaningful conversations and sharing life experiences. The smiles on the faces of the residents remind us that just a few hours of sincere interaction can present forgotten hearts with hope, healing, and happiness.

SLIPPER DISTRIBUTION DRIVE

In the year 2024, Team Gwalior took the giving spirit one step further by organizing a distribution drive for slippers at Phoolbagh Chouraha, with the objective of granting comfort and protection to the underprivileged children. Having realized that the lack of appropriate footwear constitutes an acute concern, which is underestimated by society at large, the team distributed nearly 35 pairs of slippers to underprivileged children who would have otherwise walked barefoot, subjected to adverse weather conditions. The place was chosen for this drive so that the needy people could benefit, supported by a mixture of experienced and new volunteers. All the slippers were arranged according to size and type, from which the children could choose the ones that fitted them comfortably.

The small act brought instant comfort to the children from suffering injuries and infections or even the bother of barefoot walking over hot pavements or uneven terrain. It not only gives physical comfort but also solidifies the sense of being cared for and included, which helps nurture the self-esteem and dignity of the children. On the volunteer side, the event proved to be fulfilling beyond words, for every smile and every word of thanks seemed to reinforce how much a simple gesture could indeed make a lasting difference.

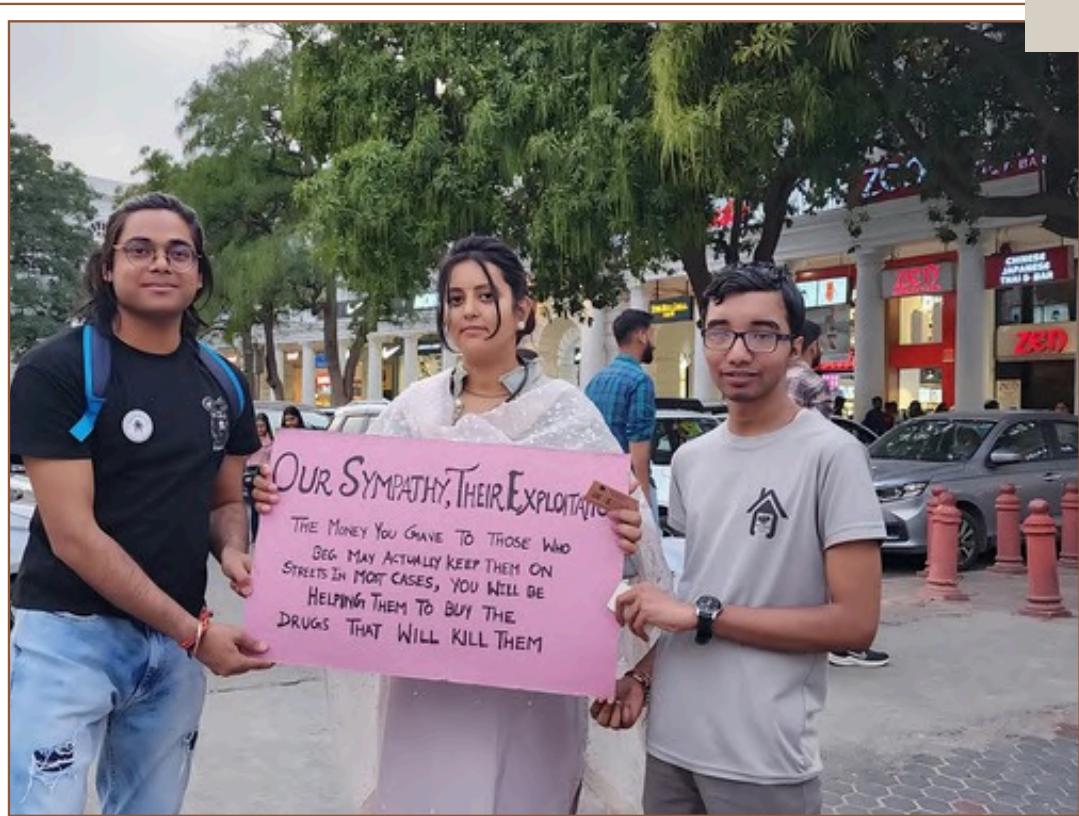

SLUM SURVEY

Our different teams conducted a slum survey. Starting with Team Delhi which is conducted first in 2023. After that, it continued in 2024 by our teams of Delhi, Gorakhpur, Gwalior, Kolkata, Varanasi aimed at understanding the true nature of challenges and issues faced by marginalized communities. Team Gorakhpur surveyed in the local slum area, with more than 30 participants on 4th August and also conducted a similar drive on 29th November, Team Gwalior surveyed with over 80 families. Team Delhi in collaboration with Vikara - The Voice of Change Foundation and Japanese News channel, conducted 2 slum survey at two different locations.

Many children could not have regular attendance at school due to financial constraints. This was achieved by interviewing people door to door, during which our volunteers, by interacting directly with the residents, gather critical insights on their struggles and struggles related to clean water, sanitation, healthcare, school, and employment. These were some of the crises that have highlighted the vicious circle of poverty in the slum areas. Survey done by Team Varanasi revealed that approximately 70% of the residents don't receive govt. benefits. The findings offered a clear picture of the community's most pressing needs, enabling us to initiate focused. It strengthened our belief that actual change starts by listening to those whom we want to assist.

OUR CAMPAIGNS

Where there is awareness, there is awakening. Where there is unity, there is transformation.

Beggar free India CAMPAIGN

In India, the very sight of people begging reminds us of entrenched challenges such as poverty, illiteracy, and limitations of opportunities. Our campaign, Beggar-Free India, approached these challenges through awareness, skill-building, and sustainable support. We do not really provide relief on a temporary basis; rather, our focus is on building permanent changes. Our volunteers have taken the initiative to conduct public awareness campaigns so that people understand how giving money directly to beggars may actually harm them and instead be encouraged to support these beggars through vocational training or education.

As part of the movement, gift kits containing useful items, such as stationery and tools, were given out to promote self-employment. A truly transformative story was witnessed in Dwarka, where a man who had formerly been a tailor and who had resorted to begging was given a sewing machine so that he could revive his life and restore his dignity. We also organized an awareness campaign on 14th July, 2024 for a Beggar free India. In collaboration with DMRC Delhi and IOC petrol pump, we came together to spread awareness about begging through interactive games. On 8th November, Team Mau celebrated Chhat puja by raising awareness about the negative impact of begging on our society. Our endeavor to build a truly beggar-free India comes from extending education, skills, and compassion to the most helpless among us. Together, we look to create more life-transforming experiences, one story, one opportunity at a time.

Education Awareness CAMPAIGN

We believe education as a powerful tool to free someone from the shackles of poverty. Our Education Awareness Campaign was devised as a tool for transformation in the lives of the marginalized, which was mainly held in 2022 and 2025. Volunteers interacted with the families in various Dwarka slums, imparting the awareness of the long-term benefits of education. They talked about how learning knowledge, skills, and jobs equate to improved standards of living, and eventually, the upliftment of the whole economy.

Girls were given special attention because education equips them to make decisions about their health, family, and planning for their futures. The campaign builds the notion that education is a right, not a privilege, for it determines lives and builds nations. Through interpersonal communication, the volunteers stimulated the breaking of barriers to encourage families to enroll their children in schools. This awareness campaign was, therefore, an elaboration of characters sowing the seed of hope and determination. Our NGO, through advocacy for education for everyone, has been instrumental in shaping an informed, empowered, and equitable society thus far.

Health Checkup CAMP

We always emphasized that basic healthcare should be a right rather than a privilege. In this spirit, health checkup camps were organized in many underserved areas to provide medical access to those who often neglect their health due to financial constraints. In 2021, we held a awareness campaign on health. In March 2022, a general health checkup camp was held at Govardhan, Mathura, where vital screenings for blood pressure, pulse, temperature, and eyesight were conducted. It was an immediate relief for many as the common diseases of fever, headache, or stomach-ache caused by medications were distributed free of cost.

Continuing this spirit, in 2023, another free health camp was set up by Team Dwarka in Bharati Vihar, Kakrola, Dwarka. The 13 dedicated volunteers nurtured a large number of more than 50 residents by ensuring that patients undergo diabetes, BMI, and eyesight testing. Volunteers made sure that this event was well publicized in the nearby communities. So, these camps provide medical care while also educating patients on the necessity of regular checkups. By meeting neglected health needs, these initiatives brought smiles to people's faces and reiterated our vision of serving humanity with compassion and care. We hope to undertake many more such meaningful works and reach out to more recipients.

World Blood Donor Day Awareness CAMPAIGN

On the occasion of World Blood Donor Day, we organized a strong awareness movement at Pragati Park, Dwarka, in 2022 to break the myths and stigma surrounding blood donation prevalent especially among the uneducated inside the underprivileged communities. The initiative gave a message life-saving activity of donating blood that should be embraced by everyone. The students of Udaan Street School participated actively along with the volunteers. The little ones held a drawing competition, during which the children drew colorful posters promoting blood donation.

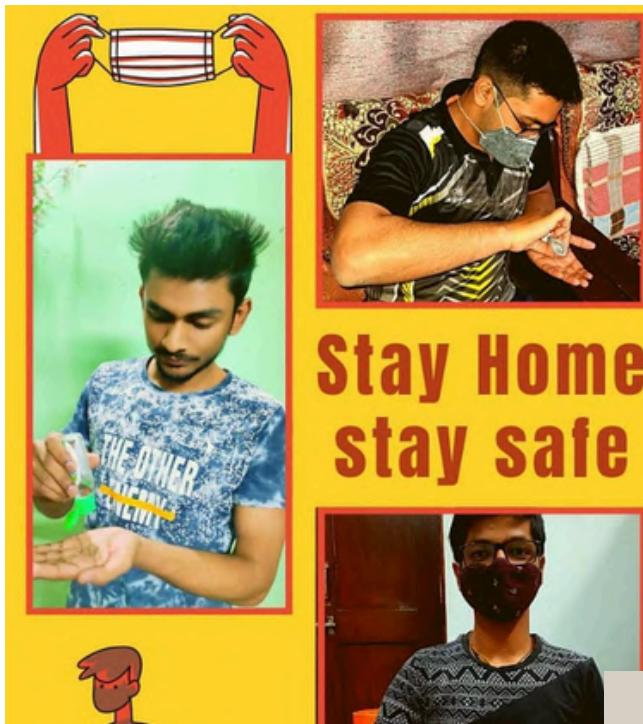

Later on, some of these paintings were used in an awareness march through the park and adjacent areas. The children and volunteers exhibited their posters high and explained to the public how voluntary blood donation can save a life. Simultaneously, Team Mau deepened the impact by taking part in an actual blood donation activity at Sadar Hospital Mau blood bank, in 2025, thereby contributing directly to the cause and encouraging others to follow. This campaign not only educated people but also empowered young minds to work towards public health. With creativity, community participation, and true action, this event managed to deliver a strong message: donate blood, save lives.

COVID-19 Awareness CAMPAIGN

During the pandemic, We realized the urgent need to combat misinformation about COVID-19. So, our team prepared a competition quiz on myths and facts about the vaccination against COVID-19. This interactive event was designed to clarify misinformation and promote trust in scientifically based health practices. We further organized a digital awareness campaign spreading the message to follow prevention measures: wearing a mask, washing hands, social distancing, and finally, lockdown: staying indoors.

We educated people using infographics, posts, and videos about the transmission of virus, symptoms, and measures to protect oneself and others. According to our campaign, good health comprises not just physical but also mental well-being. Our awareness campaign provided people with accurate and informative information to act responsibly as informed and responsible members of the community during the crisis. Our work in the pandemic era taught people that awareness and unity are weapons that can save us from any worldwide challenge.

MEET
NIVEDITA

NIVEDITA FROM UTTRAKHAND HAS TAKEN A STEP AT HER INDIVIDUAL LEVEL AND HAS STITCHED MASKS BY HERSELF AND DISTRIBUTED IT AMONG THE LABOURS WHO WERE WORKING

A circular portrait of Nivedita working on a sewing machine, framed by yellow leaves, with text below her name. The text reads "MEET NIVEDITA" and "NIVEDITA FROM UTTRAKHAND HAS TAKEN A STEP AT HER INDIVIDUAL LEVEL AND HAS STITCHED MASKS BY HERSELF AND DISTRIBUTED IT AMONG THE LABOURS WHO WERE WORKING".

Animal Feeding CAMPAIGN

The Animal Feeding Campaign in Kolkata was a heartfelt effort that took care of stray and abandoned animals. Volunteers put in hard work providing good food for these animals, such as biscuits or rotis, and also kept water readily available across different locations, ensuring that not a single animal went hungry or neglected. This campaign of feeding also took care of the other end of the spectrum; by working alongside local animal shelters and veterinary clinics, the team arranged for medical care for those animals that were injured or sick.

**BE KIND TO EVERY
KIND NOT JUST
MANKIND.**

With such all-encompassing measures, the animals benefited greatly in terms of their health and safety, while simultaneously inculcating a sense of empathy within the community itself. To create more impact, awareness camps were held to impart knowledge on animal welfare issues and inspire people to participate more in such acts of kindness. We plan to roll out this campaign to other teams in 2025. These campaigns not only nurtured the helpless but also put a stamp on human-animal relations. Team Kolkata and other teams, through this program, tried to shift the society toward kindness-a society that nurtures and safeguards every living being. The few efforts made through this campaign have shown that capable change can happen through minimal efforts, and we want to carry this message of care and coexistence further.

Library Installation

During the Library Installation Program "Panno Ki Duniya," Team Kolkata made an effort to inspire education and creativity among children. On 27th August 2023, the team went to the New Life Society Orphanage in Naihati, Kolkata, and presented the children with a mini-library of storybooks and study materials, underscoring the message of "Padhega India, Tabhi Toh Badhega India." This initiative shows our belief that education is a fundamental right rather than a privilege, and this initiative was helpful in providing learning resources for the underprivileged children and kindling their curiosity for knowledge.

An immensely joyful and fulfilling day was spent. The drawing competition, with 30 eager children participating and unleashing their imagination and creativity, was held. Awards were presented to this year's champions, after which the celebratory ambiance continued over a meal, fostering happy memories and bonding. That air was filled with warmth, laughter, and inspiration. This is how Team Kolkata reaffirmed its commitment to the cause of supporting children's academic and emotional growth; they were building not just a library of books, but irresistible opportunities full of dreams.

Menstrual Hygiene Awareness CAMPAIGN

We started a Menstrual Hygiene Awareness and Sanitary Pads Distribution Drive in Dwarka, Gwalior, Patna, Varanasi, and Gorakhpur among underserved communities, knowing very well that menstrual health is important for women's dignity and well-being. The campaign tried to break taboos and raise awareness, while also distributing good hygiene products to those women and girls who are often denied such provisions because of financial or social constraints. The initiative began with interactive awareness sessions run by volunteers and healthcare workers.

These sessions talked about menstruation, hygiene, and the proper use of sanitary supplies such as pads, tampons, and menstrual cups, dispelling myths and stigma regarding periods in an effort to promote open, healthy conversations. More than 10,000 sanitary pads were then distributed to women and adolescent girls after the session. By equipping these girls with both knowledge and resources, this campaign aimed at empowering them to feel comfortable in managing their menstrual health and preventing them from missing schools or jobs as well as getting infections. This was another instance wherein Helping Hut sought to increase menstrual equity to ensure that no woman was left behind, whether due to silence or stigma.

Utthaan ABHIYAN

We believe that "Awareness is the first step toward change, and acceptance is the second," and thus have launched the Utthaan Abhiyan to promote awareness regarding government schemes for the upliftment of the underprivileged classes. It was held in 2021 and 2024. Lacking information in many instances, eligible beneficiaries remain deprived of the benefits conferred upon them; this campaign served to close that gap. A regional array of teams, including Team Kolkata during Mandela Month, went into rural and marginalized areas to apprise people of the important policies and welfare programs.

Volunteers conducted interactive sessions to address the eligibility, benefits, and application procedures. Yet the group did not stop at merely disseminating information: they assisted locals in identifying schemes relevant to them and then walked step-by-step through the application procedure. Accordingly, this campaign empowered the people not just with knowledge but also with the tools to uplift their own lives. The initiative also received coverage in the media and, more so, was featured in Dainik Vishwamitra newspaper, increasing the impact. Utthaan Abhiyan is an example of how informed communities become empowered communities. We continue to work towards realizing that no seed of growth or support goes unheard or unused.

Cleanliness CAMPAIGN

Being clean is not a practice but a necessity for health and a better environment. With this ideology, we launched a national cleanliness campaign to spread awareness about hygiene and waste management. In 2021, the campaign went online with the motive to educate citizens about how unhygienic surroundings impact the nation and to invite people to act responsibly. Team Dwarka continued this initiative by converting what once was an eyesore site occupied by vendors into a learning space for Udaan Street School children, hence turning waste into opportunity.

Team Dwarka lead a cleanliness drive in 2022. For this mission, under the Swachh Bharat Abhiyan, Gorakhpur, Gwalior, and New Delhi units organized massive cleaning drives on the 2nd October of 2023. While volunteers cleaned Mirabai Park in Delhi, Gandhi Park of Gwalior, and Pant Park of Gorakhpur, community engagement and responsibility were promoted. Team Delhi and Team Varanasi were on the streets, classrooms and public environments and delivered the message of Cleanliness by doing. Team Delhi gathered on 2nd October at Pragati park organized cleanliness awareness drive in 2024. Through disciplined efforts and sharing of work, we envision a cleaner, greener, and healthier India, one step and one space at a time.

Sneh CAMPAIGN

A very kind winter relief operation targeted toward the most vulnerable sections of society was set up by Team Gorakhpur. The campaign focused on supplying warm clothes and slippers to be together with elderly individuals and those who are physically and mentally impaired to withstand the winter with a little dignity and care. SNEH was more of a community initiative than just a mere giving campaign. It was an amalgamation of volunteers, donors, and organizers who gave their time and resources for the cause.

These unsung heroes hid backstage to organize support, gather winter essentials, and personally ensure their safe delivery to the needy. The campaign went beyond success; it symbolized a deeper cause: nurturing compassion, realizing responsibility, and becoming a society practicing collective care. The warmth was warmth-giving; it was felt from within in the form of woolens while establishing a heart-to-heart connection between those who gave it and those who received it. SNEH showed that even little gestures can grow and inspire a community to become more inclusive and empathetic. We would dearly like to continue creating such a culture where no one will be left shivering alone.

CELEBRATIONS

Foundation Day

July 1, 2025, will be remembered as another milestone in our journey of service and compassion. Foundation Day was celebrated enthusiastically and together in all our branches. Each team brought a spirit of its own to the celebration and creating beautiful memories filled with joy and kindness. The Mandsaur team kept the tradition alive since 2021 and spent the day with underprivileged children in the slum areas nearby, distributing snacks and sharing smiles. Gorakhpur team, recreated their 2023 intervention, brought in laughter through games, songs, and a fun cake-cutting ceremony at the local government school. In Delhi, Udaan Street School kids brought their creative talent through skits and fun zones for children in full swing, just as vibrantly as in 2023, making the day a memorable one.

Team Gwalior held cultural performances, art sessions, and interactive games as part of their grand 2023 event at DD Nagar. In 2024 Team Kerala celebrates this special day by visiting elders in Kerala at Tavanur Old Age Home. Team Kolkata celebrated the foundation day at an old age home. Team Varanasi celebrated its 4th foundation day at Sunderpur Primary School. This day will forever remind us of our shared goal, to bring positive change for those in need. With every passing year, this day will always reflect our growing strength, unity, and impact.

Holi Celebration

We joyfully celebrated Holi with the students of Udaan Street School and the local community in March 2025. In continuation of the vibrant and colorful traditions of 2021, 2023, and 2024, the event took place at DDA Park, Sector 13, Dwarka, Delhi, bringing together children, volunteers, and supporters. Like in past years, children enjoyed eco-safe gulaal from the comfort of their palms, engaging in playful activities and additional traditional games that filled the park with laughter and glory. Volunteers gave fun sessions to entertain everyone so that the underprivileged children, whom we work with each day, are especially included.

The spirit of community was cultivated through refreshments and lively interchange among all: from young learners to enthusiastic volunteers commemorating cherished memories and bonding. Holi 2025 was not only a festival of colours; it was a celebration of compassion, inclusivity, and the unending pursuit of weaving joyous commitments.

Independence Day

With the coming celebrations of Independence Day 2025, we look back on the inspiring journey during the past years and feel pride and gratitude. In 2020, Team Mandsaur marked the day by distributing education kits and standing up for children's right to learn. In 2021, the underprivileged children took part in drawing competitions and were taught about liberty and the history of India. In 2022, Team Dwarka organized both happy and educational activities at DDA Park, with games and learning sessions for the children.

In 2024, Team Gorakhpur and Varanasi hosted distinctive events, featuring a motivational talk by Shakti Samman awardee Shweta Mishra, and involved flag hoisting, cultural programs, and distribution of stationery. Team Delhi visited Sai Baba Slum in Najafagarh, Dwarka, spreading joy and patriotism among the community, with over 50 people participating. Team Mau celebrated with underprivileged kids, distributing refreshments to around 100 kids. These meaningful milestones renewed our commitment to empower, educate, and unite, looking forward to Independence Day 2025, where freedom is not just a right but a shared responsibility.

Women's Day

Over the years, we have actively worked to raise awareness about menstrual health and hygiene, especially among women in underserved communities. In 2022, in collaboration with Enactus and DDUC, our volunteers visited slum areas to distribute sanitary pads and educate women about safe menstrual practices. The initiative shed light on the harsh reality that many still rely on unhygienic alternatives due to a lack of access and awareness.

Building on that momentum, the 2024 International Women's Day was marked by impactful Menstrual Hygiene Awareness and Sanitary Pad Distribution Drives across Varanasi, Gorakhpur, and Gwalior. Health professionals and volunteers led sessions to break myths, promote hygiene, and create a space for open conversation around menstruation. The drives not only provided essential resources but also empowered women and girls to manage their health with dignity, reducing stigma and improving their overall well-being.

New Year Celebration

Starting off the new year means fresh hopes and warmth for brighter days. A heartfelt beginning was experienced in 2021 when we celebrated the New Year with poor children near Dwarka metro station in Delhi. Just about 50 gifts were distributed among the children, along with sweets and refreshments. Team Gwalior also distributed gifts among children. The little faces lit up with unquestionable joy; their smiles were so radiant that the sun itself would have paled in that moment, which brought out the spirit of the season.

The festival was not just about gifts; it was about spreading love and kindness, the thought that every child deserves happiness as the year begins. These memories keep this concept of togetherness alive. We hope to carry onward this tradition, embracing each new year with compassion, joy, and experiences that will always live deep in everyone's hearts.

Special Day Celebration

Celebration of special days has been one of the major favorites of Helping Hut, with birthdays, anniversaries, and personal milestones celebrated with the children of Udaan Street School. Volunteers and well-wishers have brought joy to these little angels by turning their special moments into memories filled with love and laughter. The celebrations- for these children- meant cutting cakes, playing games, sharing sweets, and having heartfelt interactions. And really, it brought genuine happiness to the children, and sometimes even more joy to the people who chose to celebrate with them.

Across Delhi, Gorakhpur, Gwalior, Mau, and Varanasi, birthdays became really heartfelt celebrations filled with joy and togetherness. From park outings to surprise gestures, our teams turned simple moments into cherished memories rewarding children and volunteers alike. In 2024, Team Mau, Gwalior, Varanasi, Gorakhpur, Delhi celebrated the founder's birthday on November 11 with underprivileged children. Sharing smiles, laughter, and love, we proved that the smallest things done with a sincere heart can create lasting happiness.

Ganesh Chaturthi

Our team has always celebrated Ganesh Chaturthi with great enthusiasm and affection. A lovely memory was created when Team Gwalior arranged for the children at Shanti Nagar, Gwalior, to compete by making Ganpati idols and posters. The energy, creativity, and happiness experienced by the children while making their idols and creating colorful posters truly united the entire local community in a festival spirit. Team DDUC, on the other hand, went about distributing nutritious food beside Deen Dayal Upadhyaya College. Over 500 packets of kadi chawal were distributed to the needy, ensuring that the celebration was essentially joyful and meaningful.

These moments reminded us that festivals grow more beautiful when shared with others – through artistry or compassion, or community service. Whether through vibrant art or heartfelt deeds of kindness, the Ganesh Chaturthi celebrations have always brought smiles, forged unforgettable memories, and strengthened the bond between our volunteers and the communities we serve.

Udaan Street School Anniversary

Udaan Street School's annual celebration serves as a heartfelt reminder of our journey since its inception in Dwarka, Delhi, on 7th September, 2021. What started as a small step to provide holistic education to underprivileged children has blossomed into an active learning space with branches in Delhi, Gwalior, Mau, and beyond. Memories of past anniversaries bring smiles to our faces—like the celebration at Pragati Park, Sec-13, where volunteers filled the day with games, laughter, and meaningful engagements. The joy of sharing toys and books, the sparkle in children's eyes, and the priceless evergreen memories of togetherness have all made it truly unforgettable.

From regular classes, PTMs, and field trips to the Science Museum and Amrit Udyam to art workshops, Udaan is much more than just a school; it's a second home, a place where dreams are nurtured and confidence is built. The journey continues, full of promise and purpose. This anniversary, we celebrated with fun activities, cake cutting, and more, marking another year of growth and learning since our inception.

Gandhi Jayanti

Since its inception, Gandhi Jayanti has always meant so much for our NGO because it stands as an opportunity to honor the life values of Mahatma Gandhi through acts of service and compassion. Every year, we celebrate this day by engaging in cleanliness activities and distributing essential items. Our teams have marked this day with heartfelt initiatives that uphold Gandhi's vision of cleanliness, dignity, and humanity. In Gwalior, we distributed cleanliness equipment and conducted an awareness campaign empowering slum areas with basic tools like brooms, dustbins, and gloves, while spreading the message of hygiene and community responsibility. Our Dwarka Team organized a cloth distribution drive near a construction site, offering warmth and comfort to daily wage workers and their families through the harsh winters.

Team Varanasi enjoyed cleaning and socializing with the locals around Assi Ghat, whereas Team Mau went for "Swachhta Ka Shramdaan," getting their hands dirty cleaning public spaces. These memories remain a source of inspiration, reminding us that genuine homage to Bapu is through action, building a cleaner, kinder, and more cohesive society.

Christmas Celebration

Throughout the years, Christmas has been one of the most inspiring celebratory institutions for our NGO, an opportunity to spread love, warmth, and joy among children from different communities. From our first celebrations in different orphanages like Bal Seva Sangathan and Prerna Niketan, sharing clothes, food, chocolates, toys, or anything else at hand, to the recent lively celebrations, every moment has been filled with laughter and kindness. In 2022, the Christmas spirit descended upon Dwarka, where volunteers and children played games, embarked on an exciting treasure hunt, and happily watched a talent show. Santa Claus entered the scene and distributed food and snack packs, forever entrenched the day in everyone's memories.

In 2023, Team Kolkata along with The Rotaract Club and Autism Society WB, illuminated "Santa Elo Shohore" with art, music, and joy. Meanwhile, in 2024, Brats and cuties invited our Udaan Street school children and gifted them wonderful items. There were warm clothes and blankets to help families stay warm during the harsh winter weather. Thanks to our dedicated teams of Delhi, Gwalior, Gorakhpur, Pune, for Blanket and Cloth distribution, bringing smiles and happiness all around.

Yoga Day Celebration

Some of the greatest, serene, and uplifting memories we share were thanks to International Yoga Day celebrations with the students of Udaan Street School. Volunteers and children met up in a nearby park and tried yoga postures alongside simple meditation techniques. It was more than just exercise; it was a gentle nudge to keep one's mind working on things like balance and peacefulness. The children were keen listeners as the volunteers deliberated on yoga as a meditative and bodily exercise. Their very participation and energy, and curiosity awoke this day to special status.

The local press captured the highlights of our serene gathering, recognizing our team's efforts. The session concluded with a warm hospitality, filling hearts with smiles. Recently, in 2025, we also held a yoga class. This meaningful experience motivates us to carry on with such wellness campaigns for the future in promoting healthy habits and inner harmony among young minds.

Environment Day Celebration

From the beginning, World Environment Day has always been an occasion to strengthen the urgent need for protecting the environment. One of our fondest memories is planting trees. In 2020, we initiated a plantation drive, resulting in around 500 saplings getting planted at various locations, including a touching effort with our team in Patna. But the project did not just end at planting; the volunteers also pledged to nurture every sapling, for true restoration cannot exist with just planting. An amazing collaboration and volunteer effort involving I.I.M.U.N. and Team Gwalior brought together to celebrate our planet.

In 2024, Team Mau kept the tradition alive. Volunteers who gathered, along with their families and friends, sowed the seeds of saplings across the town and took great care of them. They even made brick boundaries to protect the saplings from harm. The feeling of unity, responsibility, and pride among the participants was somehow very moving. These experiences have strengthened our bond with nature and raised awareness within communities. Hoping to celebrate such days for long, creating a lasting impact, one tree at a time.

Children's Day Celebration

We have always cherished Children's Day every year from 2022. This day is a celebration of the laughter, dreams, and innocence of childhood, often denied to many young ones. In 2022, we made the occasion special for the students at Udaan Street School with games of kabaddi and hide and seek, filling the day with joy and laughter. Volunteers engaged children in fun activities and distributed refreshments and gifts to make it a memorable day.

Some celebrations were taken to the slums across Delhi/NCR while distributing stationery kits and chocolates to children who could not afford to buy school essentials. The volunteers interacted with children and parents about how education could pave the way for a better future for their children. These warm memories remind us of the worth of a smile from every child. We wish to keep creating such joyous moments for years to come.

Lights Of Diwali

Diwali has always held a special place in our hearts, symbolizing the spread of light, happiness, and unity among communities in need. Since 2021, we've celebrated Diwali by sharing joy with underprivileged communities. In 2022, Team Dwarka brought the festivities to DDA Park in Sector-13, engaging children in creative diya decorations and drawings. This was where the children let their imagination and talent loose and had fun playing Treasure Hunt and Dog in the Bone. The day was really magical filled with laughter, sweet exchanges, and gift hamper distributions, creating an ambiance of sheer joy.

In 2024, our celebrations took on a more meaningful dimension, focusing on sustainability and community welfare. Sweets and crackers brightened little faces in Gwalior in DD Nagar and Hazira areas. Near the Vegas Mall in Delhi, the Diwali Mela and donation drives kept families busy with diya decoration. At Assi Ghat, giving away diyas in Varanasi gave a chance for locals to uplift their celebrations with dignity and purpose. Year after year, we would love to keep creating such beautiful memories and touching many lives through acts of kindness and joy.

Ambedkar Jayanti Celebration

Ambedkar Jayanti has always been a wonderful occasion for us to celebrate the aspirations of equality, education, and empowerment. One such wonderful celebration was with the students of Udaan Street School, where the spirits of learning and joy blended seamlessly. The day was filled with cheerful energy as children participated in games like treasure hunts and musical chairs. Teams followed clues enthusiastically in the treasure hunt, displaying teamwork and problem-solving skills. It was heartening to see the joy on the winners' faces while they were receiving their prizes.

Our volunteers took part in musical chairs with the kids, creating a cheerful aura that bonded them together. These simple moments remind us that all exchanges are worth committing to, whether with the few simple actions that can help create joy-filled spaces for every child. We would like to continue honoring Babasaheb in the years to come by learning, laughing and growing together.

Makar Sankranti Celebration

Makar Sankranti has always been a cherished time for our NGO to spread happiness and the feeling of togetherness among the people. One such lovely celebration happened in Shanti Vihar Colony, Gwalior, with Team Gwalior organizing a fun-filled, unforgettable day for children and residents alike. The event began with dance and singing sessions, with children happily showing off their abilities in front of an encouraging audience. The drawing competition added a splash of creativity to the day, and winners were happily rewarded for their outstanding artwork.

The fun began when each child received a bright, colorful kite. As kites soared across the sky, laughter rang everywhere, encapsulating the very spirit of the festival. The night ended on a sweet note with chikki and bazaar sweets distributed among everyone. We hope to continue making many more warm-hearted memories that take flight every Makar Sankranti, filled with hope, joy, and togetherness.

Charity Carnival

One of the most cherished memories in our journey was Team Dwarka's Christmas Day Charity Carnival, which went beyond mere festivities to support the education of Udaan Street School children. The carnival stood alive with boisterous games like light the candle, coin in the bucket, and aim the target, alongside mouth-watering food stalls that delighted everyone. Students from various Delhi University colleges enhanced the liveliness and inclusiveness of the moment.

The highlight of the day was having the Udaan Street School children participating in the event; their excitement illuminated the whole venue! Gifts amounting to over ₹50,000 were given to them, which brought about radiant smiles to brighten the day full of warmth and positivity. The carnival served as a reminder that joy shared with a cause leaves a lasting impression. We look forward to creating many more beautiful memories in the days to come.

Anondo Baisakhi Celebration

Ananda Baisakh has carved one of the most heartwarming memories in our journey. The Vibrant Occasion was celebrated in 2023 by Team Kolkata with the children of Universal Smile Orphanage, Anandapur, in association with the Rotaract Club of Calcutta Presidency. The event witnessed the distribution of 50 packets of desirable refreshments from Mio Amore—simple treats that many would take for granted but were rarely ever available to those children. From that moment on, the kids returned home with smiles on their faces, reflecting how small acts of kindness can be so rewarding to both.

Our volunteers worked hard to ensure that every child feel special and cared for on that day. The act was simple, yet simple with meaning, a simple afternoon into a cherished celebration. We hope to bring more such touching moments into the highlight, spreading smiles, love, and the true spirit of Ananda-Baisakh—the true Ananda-Baisakh for every heart we touch.

Eid - Celebration

A simple yet very heartwarming memory that comes to mind is of the September 2024 Eid celebration. Team Mau, together with the Eid Milad-un-Nabi committee, followed the festival spirit and shared sweets on the streets-including all categories of people to have share in the joy. The gesture was small, yet so very beautiful. Sweets were handed out to smiles so were many, and there came a pretty nice feeling of warmth and togetherness. It was worth the memory that festivals are not about rituals so much as about spreading love, togetherness, and happiness to one and all.

Such celebrations bring people together, forging bonds that transcend words. We hope to keep making more joyful moments like this-worldwide spreading happiness, kindness, and Eid spirit.

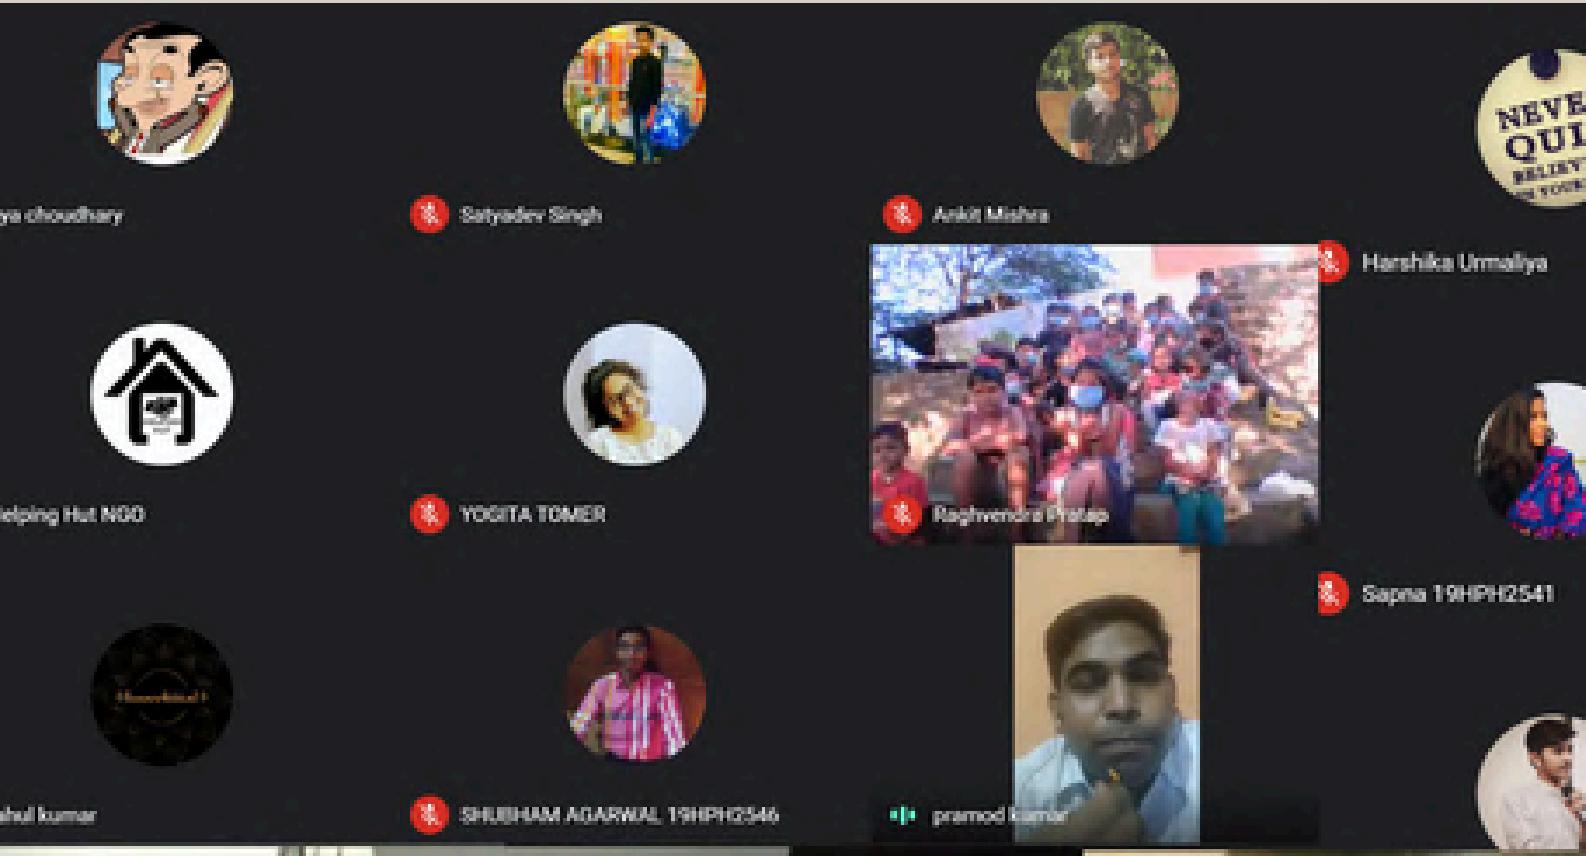

Teacher's Day

The Gift of Teachers Day will remain a meaningful memory forever along our journey. In the year 2021, an awareness session especially meaningful to rural kids was created with the help of the coordinators of our NGO, and in collaboration with Mr. Ashok Kumar, Assistant Professor at the University of Delhi. The session highlighted education, independence, and the mentoring of children to steer their futures. By imparting this knowledge, we aimed to inspire young minds to embrace the vast opportunities and technological advancements of our rapidly changing world.

The children were actively involved in the event, drawing pictures and engaging in heart-warming interactions. Their curious nature and openness depicted what the day was all about—the appreciation of mentors and the joys of learning. We also celebrated this day in 2024. It was a day of celebration for knowledge, evolution, and nurturing. We hope to continue creating such inspiring memories, spreading awareness, and honoring those who illuminate young lives with wisdom and care.

Fundraising Seminar

We raised funds for Kanav Jangra, a little boy suffering from Spinal Muscular Atrophy (SMA), who needed the world's most expensive spasmolytic injection—Zolgensma, a treatment that costs INR 17.5 crores. The NGO organized seminars, awareness drives and other fundraising events. They pursued every possible outreach program to support Kanav's treatment.

WEBINAR
Fundamentals of Fundraising

KARPAGAM M

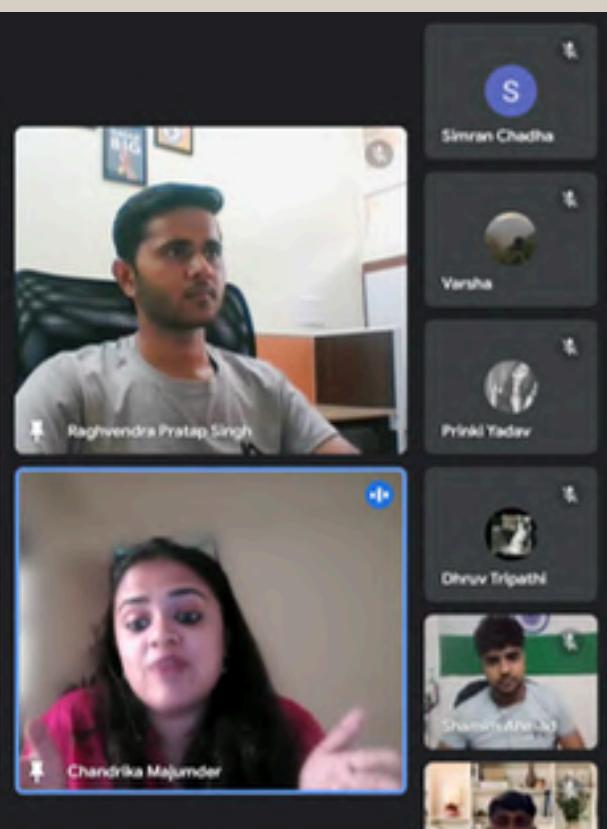

CHANDRIKA MAJUMDAR

Several celebrities, including Farah Khan, Chunky Pandey, Kiku Sharda, Bharti, and Harsh, lent their support to the cause, helping it gain a lot of momentum and inspiring the masses. The overwhelming response of the people, followed by the untiring efforts of our volunteers, helped a great deal in bringing Kanav closer to life-saving treatment. This was the epitome of the coming together of unity and humanity, proving that miracles are possible when a community unites for a worthy cause. The fundraiser was never about money; it was about hope, action, and a will to change a life.

How it Works?

- ◆ **01** Awareness:
Spreading information about the cause to potential donors.
- ◆ **02** Engagement:
Creating opportunities for donors to connect with the mission.
- ◆ **03** Contributions:
Facilitating financial or in-kind donations.
- ◆ **04** Stewardship:
Showing gratitude, providing updates, and maintaining communication to ensure lasting relationships.

Volunteer Meetup

Monthly meetings are the foundation of cooperation, communication, and team building. Therefore, conducted at least once a month, typically through Google Meet, these sessions give volunteers a dynamic forum to reflect on past activities, assess challenges and successes, and plan forthcoming projects. They are crucial to ensuring that all volunteers are oriented towards the goals and mission of the organization. The meet-ups promote a culture that is inclusive and innovative, whereby volunteers are encouraged to give feedback and share new ideas for improving the organization's social impact. These conversations directly enhance coordination and transparency, thereby stimulating creative ownership among teams.

Along with online meetings, such offline meetups in Dwarka and MITS College, Gwalior, nurture volunteer ties with group activities and interactive sessions. These face-to-face interactions make relationships stronger, engender community feelings, and provide esteem and connection to every volunteer. We keep volunteer meet up once in a year. Together, these meet-ups make an indomitable and ardent volunteer network so crucial to effecting change. It further ensures that we grow in outreach, heart, spirit, and unity.

UDAAN -STREET SCHOOL

Udaan: Where Dreams Take Flight

We believe that all children deserve wings to fly; hence, Udaan- Street School was initiated to impart free, quality education to needy kids. Just a few months ago, the school started with a handful of children; today, it has a student strength of 285+ and aims to reach 500+ in the upcoming year. Udaan means more than just a school — it is a joyous and fun-filled place to learn. Children are taught here who, at one point, used to beg at red lights, whereas others were brought up in misused slums; these children are now being educated in the alphabet, numbers, stories, and essential life skills.

Education is Freedom – Udaan Proves It

Volunteers are the foundation in hosting the daily classes, competitions, and games to ensure that children do not just grow intellectually but also develop mentally, physically, and emotionally. Alongside enrolling children in fundamental learning and other recreational activities, we keep children continuously involved, confident, and curious. Education is a right and must not be earned. Every smile evident on a child in the class assures us that opportunities matter. Every time a book is opened and a hand is raised, a lesson is learned and a life is impacted.

TURNING SLUMS INTO CLASSROOMS

#ACTIVITIES AT UDAAN

Learning at Udaan Street School is far beyond books and blackboards. The all-around development of the students is ensured by an approach that merges education with fun, creativity, and real-world exposure. From regular parent-teacher meetings to see the progress to drawing workshops aimed at nurturing artistic skills, every event is put together to fire joy and the will to learn. Children participate in happy celebrations of New Year, Gandhi Jayanti, and Blood Donor Day spirit, which raise awareness and community feeling. Through cooking contests and outdoor games, children practice teamwork, learn life skills, and promote fitness. We organized first in our series of field trips was our journey to the Science Museum, exploring interactive exhibits, listen to fun space stories, and even do some hands-on science experiments. and a transformative trip to Amrit Udyam for Udaan Street School children, aiming to provide them with valuable experiences and opportunities.

Some of the entertainment activities include treasure hunts, toy distribution, and mask coloring sessions at Vegas Mall, under the theme "The Lost World," all to nurture creativity and confidence among children. The educational trip to the National Museum, Delhi, where students were engaged in discovering the rich heritage and history of India, was undoubtedly one of the special highlights, putting learning into an experiential format. Each activity conducted during the Udaan project works towards imparting knowledge, values, and joy to the underprivileged children. They are a form of learning all these children enjoy, teaching them to identify with one another, discipline, and purpose, thus ensuring that every child here does indeed fly.

#ACTIVITIES AT UDAAN

Recently, a lot of enriching and mindful activities were organized for the Udaan children, street. They are meant to nurture emotional, social, and creative development. The month of June began with "Jagrukta" on the 5th, whereby the study of bullying brought forth awareness of coping mechanisms through open communication and peer support. A second mindfulness session was held on June 11, extending storytelling and artistic opportunities to foster internal calm and self-expression. Zubani Foundation came into play on June 16 with games like Damsharas and Dog in the Pond for confidence, creativity, and teamwork. On days to follow, Yoga session was conducted, the children were imbued with techniques for breathing and relaxation on June 20 so that they deal with emotions.

On June 24 and 25, conducted two days session with respect for words like thank you, please, and sorry as important components of respectful communication. The students were introduced to worksheets and paper craft activities designed to strengthen their basic numeracy skills and fine motor coordination. The month wrapped up with a two-hour therapy session for Post Traumatic Stress Disorder on June 27, where children explored emotional healing through drawing, coloring, and a joyful time jamming along with a guitar session, showing how art and music can heal. Together, these sessions offered children an opportunity to learn, laugh, and heal for the well-being of their holistic growth.
